

JointHealth™

Arthritis Medications Report Card Where does your province rank?

Pharmaceutical policy discussions and announcements at both the national and provincial levels are changing reimbursement access to treatment options for Canadians living with

The JointHealth™ Arthritis Medications Report Card is designed to help Canadians understand their province's ranks in terms of providing reimbursement for medications approved for inflammatory arthritis, axial spondyloarthritis, psoriatic arthritis and juvenile idiopathic arthritis.

The JointHealth™ Arthritis Medications Report Card tracks advanced therapy disease-modifying drugs (or DMARDs) used to treat the most common types of inflammatory arthritis:

- Biologic response modifier (originator or “boDMARD”)
- Biologic response modifier (biosimilar or “bsDMARD”)
- Targeted synthetic molecule (tsDMARD)

If your province doesn't measure up, ACE encourages you to write and speak to your elected representative about the lack of equitable reimbursement access and patient/physician access to inflammatory forms of arthritis.

Medications Chart : Updated April 2024

1st : Ontario (Last year: 1st)

Generic Name (Brand Name)	axial spondyloarthritis					juvenile arthritis	psoriatic arthritis

About the report card :

Arthritis Consumer Experts graded each of the provinces by assigning a score based on the number of listings, number under review, and number of declined listings. In some cases, information was not available on a province or territory's website. This lack of transparency was reflected in grade assignment.

Because provincial formularies change frequently, we encourage you to contact the listing agent in your province with questions you may have about medication listings of concern to you.

Definitions

Declined : The formulary does not reimburse patients prescribed this medication. This term “non-benefit”.

In Trials : This medication is undergoing testing for use in treating this disease type.

Listed—Each province and territory has a process by which medications that are not on the
CBC : provincial, territorial or federal drug benefit lists are covered (or reimbursed) on a case-by-case basis.

Listed—The medication is listed, but the criteria are not supported by medical evidence.
ORC : Experts consider these overly restrictive criteria (ORC) unacceptable.

No NOC : No Notice of Compliance (or NOC) has been issued for this medication for this disease type.

Under Review : This drug has been approved by Health Canada for this disease type and the formulary is currently considering whether patients should be reimbursed for it.

Unknown : There is no public information available.

No Info : (No Information) The publicly funded drug plan has not provided information on reimbursement listing.

Delisted : The formulary has delisted the originator biologic.

* **Note** : The Non-Insured Health Benefits (NHIB) program provides supplementary prescription and non-prescription drugs, for registered First Nations and recognized Inuit.
